

We seek to bring people health and happiness through innovative new medication.

Message from the CEO

As CEO I am leading Sina Sanayee Pharma to capitalize what I believe are multiple opportunities to address significant unmet medical needs in the treatment of series diseases.

A successful production company, in order to acquire further trade expansion and development requires active foreign and local distributor companies.

Sina Sanayee Group has the pleasure and experience of 30 years trade. Moreover, it has active membership as a High Quality Medicine Production Company, with equipped depots and pharmacies in the market.

We have a strategic decision to relocate the functions of sina Sanayee pharma to Hakim Sanayee University in order to better promote a synergy effect with academia.

We strongly believe that Sina Sanayee Pharma has the necessary expertise talent and determination in Pharmaceuticals zone which significantly benefit patients.

It is more vital that we precisely identify unmet medical needs in Afghanistan in timely manner for all the latest clinical evaluation. With this mind we are currently committed to develop our business toward the realization of our long term strategic vision.

A successful distributor company has to be on good terms with depots, pharmacies, private and public hospitals. Furthermore, it has to have good relation with doctors of different sections.

We not only have responsibility to provide pharmaceuticals that are indispensable today to healthcare system but we must also research the market that ensures the availability of tomorrow's innovates medicines.

By embracing these responsibilities, we hope to be a company worthy of representing in Afghanistan.

Our Vision

Our vision is to forefront our company in bringing several kinds of complex medication to patients in the market we serve.

We are achieving this on our own by strengthen the long term business connection and marketing by establishing partnership in the field of pharmaceuticals.

Our History

With a 50-year track record, Sina Sanayee offers high quality pharmaceutical for all drug delivery systems across Afghanistan, from oral to injectable and from inhalation to topical applications.

Our aim is to do well what is difficult, to give our customers what they can not find elsewhere.

Our first pharmaceuticals business was established in Baghlan, Afghanistan in 1959 by Mirza Mohammad.

Working initially out of the basement of our first pharmaceutical business, Mirza started to research; to find and import all kinds of medications with high quality from outside of Afghanistan.

Success soon followed from licensing patents to import medication from multinational drug companies. As the business grew, Mirza Mohammad built Ibn-i-Sina Clinic, in 1969.

This Clinic handles all specialties and provides high standard of medical care to hundreds of patients each day. The emergency care centre operates 24 hours a day.

The Clinic also operates 2 ambulances fully equipped mobile units which handle the transportation needs of the clinic.
